

Broadcast Engineer/Technician – West Africa

Participate in the proclamation of the Word of God through the medium of radio in West Africa by overseeing all aspects of the technical equipment used in broadcasting and assisting partners in the region with broadcasting engineering.

Core Competencies:

- ✓ Commitment to Jesus Christ evidenced by a personal relationship
- ✓ Excitement about being involved in full-time missions and willingness to develop a team of prayer and financial partners
- ✓ Flexibility and willingness to adapt to change
- ✓ Cultural sensitivity working within international teams
- ✓ Ability to independently manage several projects simultaneously and meet deadlines

Responsibilities:

- ✓ Ensure broadcasts from the West Africa Transmitting Station (WATS) radiate without error and with minimum equipment downtime
- ✓ Supervise the technicians of the WATS in operation of equipment related to broadcasts
- ✓ Assist TWR partners in West Africa with all matters of broadcasting engineering
- ✓ Evaluate the broadcast systems of the WATS and TWR partners in West Africa with the goal of improving all functions
- ✓ Train others in the same tasks

Desirable Qualifications:

- ✓ A two-year degree in electronics or equivalent work experiences
- ✓ Knowledge of written and oral English and an intermediate level of spoken French
- ✓ Proficiency with Microsoft Office
- ✓ Experience in working with people from other cultures and Christian backgrounds
