

# TWR360 Marketing and Web Design Intern

---

**Description of the Internship:** The TWR360 Intern will collaborate with TWR360 team members to produce website landing pages for promotional and marketing purposes. Basic knowledge of HTML5 and CSS is helpful. This internship involves team collaboration in a creative environment with great attention to detail. Responsibilities include web page creation and website content management. The TWR360 Intern will be expected to work under team member guidance to complete web pages using HTML5 and CSS. After understanding assignments, the TWR360 Intern should be comfortable working independently. A light-hearted spirit and a sense of humor are traits that are welcomed and encouraged.

**Specific duties may include:**

- Uses Content Management software and HTML5 templates to create website pages.
- Adapts to current and emerging web technologies.
- Collaborates with team members in a cooperative and respectful way.
- Listens, follows instructions, respects the process and pays attention to details.

**The intern should have the following qualifications:**

- College Student with strong interests in web design, development and mobile applications
- Aptitude for web design and development
- Basic knowledge of HTML5, CSS and Photoshop
- Technically savvy
- Detail-oriented
- Fast-learner
