Speaking Hope to the World

### Warm greetings from Apex, NC!

“Home is where the heart is” —our hearts have been spending a lot of time at home, haven’t they? The pandemic has shone a bright light on the value and vitalness of media ministry, which crosses almost any boundary to seeking hearts.

Significantly increased numbers of people have accessed TWR content on various platforms. Priorities are shifting, people are spiritually searching, and TWR is hard at work to unceasingly shine the light of truth into the darkness.

### THIS IS OUR CHURCH NOW

A Radio Home (RH) is a small group of people, sometimes a family, who gather around a media player loaded with TWR content (mostly *Thru the Bible/TTB*) in various local (heart!) languages.

RHs currently exist in India (7,500+), Bangladesh (1514), Sri Lanka (# - ?, but 206 new ones were added in just April), Nepal (no #s yet) and Pakistan ( 3,000+).

### WHAT WOULD WE HAVE DONE?

“During lockdown, every Sunday at 10:00 we listened in our homes to a RH lesson on the devices you gave—as a church gathered by one Spirit while physically distanced.

Additionally, people use the lessons to share the gospel with family and some have already accepted Christ!”  
- Sri Lankan pastor

### TWR HELPED ME GET PREGNANT

Did that catch your attention? 😊

This listener from Pakistan wrote: “I am part of a society where a childless woman is considered worthless. I was living in depression and degraded as an outcast—not even permitted to attend wedding ceremonies. One day a RH coordinator gave me an mp3 player loaded with TTB programs. While studying 1 Samuel in the Old Testament, I heard the story of Hannah and Samuel. It was a life-changing experience. I prayed the same words and God blessed me with a child! I know that in this hopeless society the Word of God is our only light.  
**Thank you!”**

## ARE YOU LISTENING?

“Certainly the Lord prepared us for this crisis by already implementing the RH strategy. I recently met a pastor who arranged for all 40 church families to buy the RH kits and they all listen to one TTB program daily. An appointed elder even calls each family to inquire if they are listening!”

- TWR India director

“I am so encouraged to see how people are using this device. We are a poor and underprivileged community. But in this way we are able to provide a wonderful Bible study to our people, who listen regularly.”

- Rathwi language producer

God that He saved our family yet again—TWR Bangladesh gave us almost everything we needed. Pray that we can soon go out for our work and also to share the good news.”

## LOVE IN ACTION

◆ Two producers in Nigeria chose to quarantine *in the studio*—resulting in the production of (30) half-hour programs in 30 days—what humbling dedication!

◆ TWR Indonesia donated 400 hazmat suits to a hospital and distributed packages of basic needs to listeners.

◆ TWR Cambodia distributed masks to listeners living in remote locations.

## I COULDN'T FEED MY FAMILY

In Bangladesh, a survey revealed that the average income in city slums and among rural poor dropped by more than 80% since the pandemic began. With the help of TWR International, our national partner provided two weeks worth of food to 709 families in 12 districts.

“I am a farmer with no job due to COVID-19. We limited eating to once daily, with only enough rice to last four days. Thank

## WILL YOU PRAY?

- Protection physically, emotionally and spiritually for the global TWR family ... some facing unfathomable hardships.
- Wisdom on when we can travel again—for family, ministry partner visits and TWR ministry.

All for His glory,

*Harry & Eileen*
