

Dear Partners, Friends and Relatives,

May 2020

Greetings from our isolation home to yours! We are sure that you have been obeying the shelter in place order in your state or country as we have been. Even though it has been relaxed some in GA it will most probably be in effect for a few more weeks. Schools are out for the year since mid-March. Many have wondered what God is doing by allowing this pandemic that we have been going through. But perhaps never has the world been able to have such access to the Gospel as it has in these days.

Dan read a poem that intimates that perhaps God has allowed this coronavirus to cause people to look for Him as so many have been closed in and radio, tv and the internet are being used perhaps as never before. All of those media outlets have given out the Gospel, especially during this last Easter. Perhaps for the first time in many years the commercial aspect of Easter has taken a back seat to its real meaning. Around the world you heard very little about the Easter bunny and egg hunts but so much about the Good News that Jesus is alive! So we hope the following information from some of our TWR ministries will let you see how He is using media for His purposes. And how He is using TWR. We are now broadcasting that good

news in 275 languages, using radio, internet and video and giving out the messages on various devices like microchips, memory sticks, or other larger devices. Here are some of the feedback we have received.

A Muslim Imam (religious leader) in Morocco had studied the Quran thoroughly but had never found peace. After tuning across his radio dial, he came across the program *Talmatha*, an Arabic discipleship program. He didn't understand everything but began to listen. He said: *"I found the kind of peace that suits my soul, the soul that was created in me by the great God. I thank God for allowing me to know who Jesus is for real!"* He knew he could not continue preaching in the mosque and was very afraid. After talking with the TWR follow up dept. he decided, *"I am not afraid anymore! I will quit being an Imam, and I will start preaching about the one who gave me real peace and makes me feel alive and happy, Jesus Christ! I would like to ask for prayer for my life, so I always please the Lord and follow His ways."* And pray, also, for this ministry of radio that is still so powerful all over the world.

360 ended the year with 89 active languages on TWR360.org. A prayer wall has been launched to encourage visitors to the site to share and respond to prayer needs. Messages of information about the coronavirus that also give hope in Christ with each message have been well received on this platform. Pray for the TWR team that gets this ministry out and, as you know, Dan is part of that team.

Six new languages of the *Hidden Treasures* audio programs for trafficked women have been developed for a total of 12 languages that are ministering to women in Europe and Asia. *WOH* reaches women in 94 languages. But the interesting thing is that almost as many men as women listen to these programs! Their monthly prayer sheet is delivered to thousands and thousands of individuals and churches around the world. Pray God's continued grace and provision for this ministry and women worldwide.

EMAW or Every Man a Warrior ministry came on board last year. It is a ministry to men that has mainly been a print medium that speaks to specific men's issues. But now 100 Warrior Minutes for radio are being produced by TWR to encourage men in their walk with the Lord. EMAW has Bible study books that can be ordered at TWR's address and has study groups in 34 countries. God is blessing men's ministries as He has the women's ministry. Pray for this vital ministry.

This is our video ministry. Besides promotional videos and informational videos they also produce a video story set that is used in various countries where you cannot easily share the Gospel. In this day of smartphones, which perhaps more people abroad have than in the U.S. because they can get internet on them without a computer, videos are a great way to introduce the Gospel to those who have never heard or who have a misunderstanding of the Truth. Nijah's story reveals how God is using this form of media to reach young people especially. [Nijah was already a believer but she wanted to know more about Jesus and understand His story, so she actually stole WiFi in order to watch the videos. She loved them!](#)

There are more like her — many of whom have never heard the good news that Jesus loved us so much he died on a cross to overcome death and free us from sin. After the first series was released last year in the Middle East, within six months, 10,000 people had responded with their contacts so that more information could be sent to them. By the way, TWRMotion partners with other groups to produce videos and if you or a ministry or church you know of would like to have more information about this go to their website: <https://twrmotion.org>.

And what have the Dan Blossers been doing during this form of "house arrest"? Dan has been able to continue his work with TWR360 but Rose Ellen has found it difficult to not have a specific work to do. Her Bible Study class and her children's Release Time Education Classes ended when the schools were closed in March and the churches advised not to meet the week after March 15. She says she can "just clean house" so much and while she is still preparing her Bible study classes she does miss the fellowship of the ladies, children and teachers as well as doing her water aerobics exercise class with her good friend and especially being able to spoil her little five-year-old niece that she usually has after school about twice a week. But she also has had a lot more time to pray which is perhaps why God has allowed this stay at home order because He wants to hear from us. So won't you use your shelter in place time to spend more time in prayer with Him? And don't forget us!

God is good and we are well and healthy (as far as we know right now) and are staying in. Please continue to pray for us and for God to use us in whatever way He wants. Thank you for your prayers and support and we do appreciate each of you.

Because of the Kingdom,

A handwritten signature in cursive script that reads "Dan & Rose Ellen Blosser".
