See Their Heart

January 2020

Dear friends and family,

While traveling in West Africa a decade ago I had a very wise person tell me, “don’t look at the dirt and poverty surrounding many people on this continent. Instead, look at the people. **See their heart.**” That was when I wrote a book on the first TWR transmitter to broadcast the gospel into the region.

Recently I shared these words of wisdom with a precious young African girl named Rejoyce. David is training her to do much of the finance work he did while we lived in Jo-burg. During her training here in the USA I told Rejoyce, “don’t look at the big cars, smooth and clean roads or nicely aligned houses not needing protective walls which you see here in America. Look at the people. **See their heart.**”

In November, I once again experienced the generous, giving hearts of the American people raising funds for the second TWR transmitter for West Africa.

TWR-Moody Radio Campaign

David and I worked at the call-in center located in our TWR office in North Carolina. Listeners to Moody Radio responded to the TWR Oasis Transmitter fundraiser and called in from across the USA to donate to the outreach focusing on bringing the gospel to the people of Nigeria.

While David kept a tally spreadsheet, I answered calls. One excited lady who told me, “God has put me where I can only sit and talk to you on my cell phone while I am stuck in rush-hour traffic. I am deeply touched by the Moody Radio announcement and know this is a God thing! So I have to respond!”

At the end of the event, the goal of \$400,000 was not only met, but surpassed! PTL!

AWANA kids learn about kids in Venezuela

In our April prayer letter we spoke about the TWR ministry to kids in Venezuela. Around the holidays we presented *Predrito el Pulpo* – Peter the octopus puppet – with the Awana kids here in our local church.

And yes, once again we **see the heart** of people, the American kids blessing us with generosity. They are currently raising funds to give to the puppet ministry in this country of deep physical and spiritual need.

Thank you for praying for the people of Venezuela.

Prayer & Praise

- Continue to pray for God's protection over the Oasis Transmitter project in West Africa – soon to bring hope and healing in Jesus over radio and cell phone.
- Pray that we may always have our eyes open to **see the heart** of people around us.

Blessings dear ones,

David & Flora Rittenhouse
