TWR

Dear Family and Friends,

We trust you are enjoying the lovely days of summer and all the fun activities that surround this time. We are doing well. Ted injured his back a couple months ago but received word from the doctor this morning that he can do everything that he normally did before this happened. We are praising the Lord for his healing.

We so appreciate you and your interest in the ongoing ministry of TWR. You are such a blessing not only to us but the countless thousands around the world being impacted by the programs being broadcast in the heart languages of our listeners.

Every place where TWR shares the Gospel with people who have never heard or who need to be disciplined is of eternal importance. One of the regions which desperately needs these messages is the Middle East, where antipathy to God's Word is generally great and the opportunity to encounter its truth tends to be very small. *The Way Companion* and *Healing Touches* are programs targeted to the hundreds of million men, women and children living amid the frequent turmoil of this land.

Here are a few listener responses to TWR's programs to the Middle East:

- "Being in Yemen and looking into all the torn lives and souls, I kept thinking is this what Allah wants - the war, the conflicts, the famine. Then while browsing I found an episode of your broadcast talking about meeting God. To be honest, I didn't understand everything that was said, but I felt something inside me pushing to ask to know more. So, would you tell me more about this God you are talking about?" (Yemen)

- "I want to know more about your book (the Bible). We here are forbidden to even ask. Thank you for this opportunity to know - maybe - the hidden truth." (Saudi Arabia)

- "I served as a soldier for my country. But for various reasons I had to quit. I had depression afterwards. I felt alone and not understood. After listening to your programs for a long time, I understand that there is no one that can give me hope or understand me more than Christ. I decided to give my heart to him. Now I am praying that He will use me for his kingdom." (Turkey)

Prayer and Praise

-Pray for the people who are being impacted by God's Word that they will hear the truth and will accept God's precious gift of salvation.

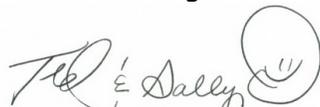

-Pray especially for those who need Jesus in the Middle East and in China.

-Pray that God would use the programs - *The Way Companion* and *Healing Touches* to touch the lives of those who need him so desperately.

-Praise the Lord for Ted's healing.

-Praise that God continues to use TWR to tell as many people as possible about God's gift in the form of His risen Son.

We are sending our love to each of you.
