## TWR: 60 YEARS

"God has used TWR to speak to millions, even billions of people all across the globe. Can you imagine what He has in mind for the next sixty years?" Lauren Libby

*This year TWR celebrates sixty years of ministry since Dr. Paul Freed and his colleagues began broadcasts to Spain from Tangiers.*

*We have been greatly privileged to be a part of what God has done through TWR. Claire joined TWR in 1987, and Bob in 1992. We have been greatly privileged to know and love many extraordinary people in TWR.*

*Here is a link to a short video about those sixty years. We hope you enjoy meeting many of our dear friends and colleagues as they tell what God has done.*

## FURLOUGH 2015

### Tarheels and Quakers

*Next year we will return to the USA for a furlough of six months, from late May through late November.*

*We will spend the first three months working at TWR's office in Cary, NC. The second three months we will be in Pennsylvania to visit family, friends, supporters and churches.*

*It seems a long time away, but already God has been at work on the details. We have housing arrangements in place both in North Carolina and Pennsylvania. We have also confirmed arrangements for an auto for use in both places.*

*We are looking forward to seeing friends, family and colleagues in both the Tarheel and Quaker states!*

Speaking Hope to the World

## BOB'S HEALTH

*On May 6th, Bob underwent internal radiation treatment at the University Medical Center in Utrecht. In this treatment over fifty radioactive seeds were placed in the prostate to kill the cancer cells.*

*Recovery in the month since has gone very well, with no unpleasant side effects. On June 6th Bob had a CT Scan and MRI to map the placement of the seeds, and will meet the radiotherapist on June 13th to review the situation.*

*During the coming months the urologist and radiotherapist will resume PSA testing to monitor the effectiveness of the treatment.*

*While Bob was recuperating at home after the procedure, the radiotherapist phoned to ask how he was doing. It is very unusual for doctors here to do that! This is an example of how our Lord cares for even the small details, and is an answer to our prayers and yours throughout this situation.*

## PATIENT IN POLAND

*Thank you very much for your letters, for which I patiently wait, no matter how long. Each makes me cheerful and brings me great joy. They are a great enlightenment for me. Thanks to your words I know that I'm a valuable man in God's eyes. Our lives have many worries and downfalls but Jesus gives us strength and support. Here in the penitentiary there are no meetings of believers, therefore your every letter means so much to me. I'm now 53 years old; until I was 14 I had the conviction that I was able to cope with everything that happened to me. However, now I know I was wrong -- only Jesus can help me. It's not easy to live here. There are lots of different problems to deal with but God leads me through these difficult moments. I share my love for God and my experience of God's presence in my life with other prisoners but they laugh at me. I so much would like to share God with others. God bless you.*

*With continued thanks for your prayers and support,  
Bob and Claire Rothrock*
