450,000 KW TRANSMITTER IN OPERATION ON BONAIRE!

Sing to the LORD a new song, his praise from the ends of the earth, you who go down to the sea, and all that is in it, you islands, and all who live in them. Is. 42:10

Praise the Lord with us, on January 30, 2018, the new 450,000 watt transmitter was powered up from the Caribbean island of Bonaire. This transmitter was expanded from 100,000 watts, and **increased not only the coverage area of TWR's Gospel broadcasts into the north, south and central Americas region, but also signal strength for current listeners.**

We participated in a wonderful celebration of the completion of this five year, \$4 million project and God's faithfulness throughout. It was also a dedication to the Lord of this equipment and the programs which will continue to go out each day into this region. **We couldn't be more thankful to the Lord for helping Daryl and the engineering team on Bonaire move through the testing phases in January and bring it up to full power!**

We thought you would enjoy seeing some photos of the event.

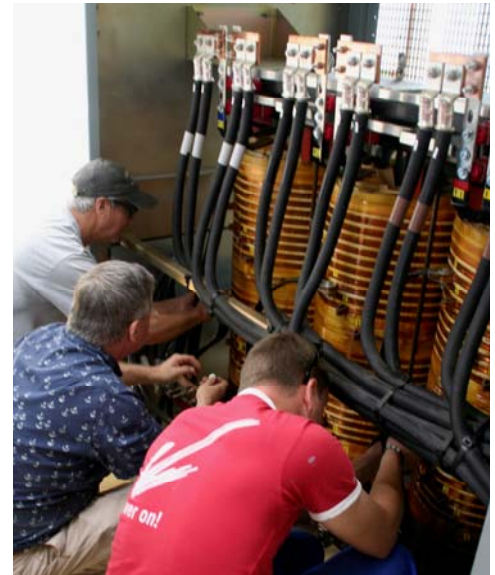

We had a turnout of about 150 people for the dedication service. Tours of the new transmitter and site were given and there was much rejoicing!

LISTENER FEEDBACK ALREADY!

- ◆ *In the first two nights of broadcasting with increased signal, we received 40 emails from Havana, Cuba, that it was coming in loud and clear! Before, Havana had a signal maybe two nights per week.*
- ◆ *We received feedback from Cubans in Miami who can now hear the programming from Bonaire!*
- ◆ *Listeners south of Sao Paulo, Brazil, say they are receiving the broadcasts.*

We appreciate it and pray God's rich blessings on you!

***For as the earth brings forth its sprouts,
and as a garden causes what is sown in it
to sprout up, so the Lord God will cause
righteousness and praise to sprout up
before all the nations.***
