## TWR - Trans World Radio

“Unless the Lord builds the house, the builders labor in vain.” Ps. 127:1

April 2019

Graham Kimber, TWR eSwatini engineer, helped with wiring and tuning the new transmitter.

Misha, TWR local worker, checking the new transmitter functions from the inside out!

### Silk Road Transmitter Project Continues

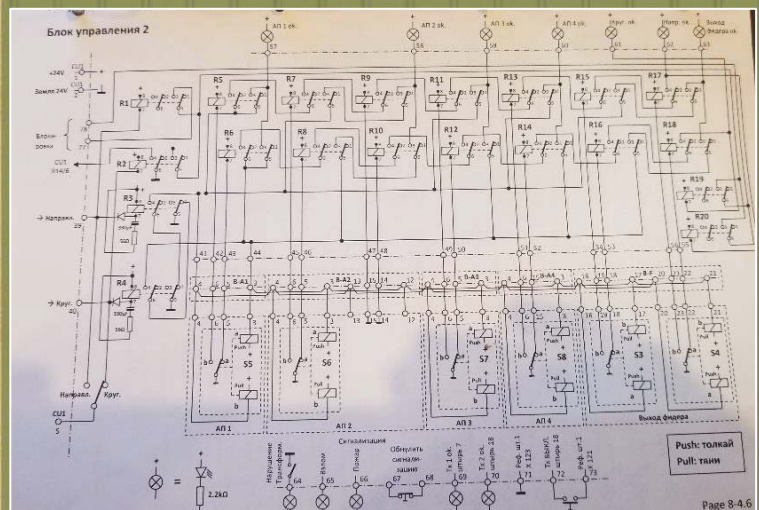

By the time you receive this, Daryl will likely be back in Central Asia with co-workers, completing the preparations for turning on the transmitter!

This 200,000-watt transmitter will bring Christian programming to ten of the twelve major cities in Central Asia (the ‘stan’ countries – former Soviet Union) and western China. The believers in these areas are young in their faith and often face persecution.

*Listener response: It is exciting to listen how God is changing the life of the Uzbek, Kyrgyz and Kazakh people and many more throughout the region. Thank God that the Word of God spreads through radio among the people of Central Asia.*

The above left frame was one of many fabricated to fit into the overall transmitter cooling system (right), to provide proper ventilation for the transmitter.

Transmitter spec drawings in Russian!

our church here in Cyprus

Weekly Greek class with Dimitris

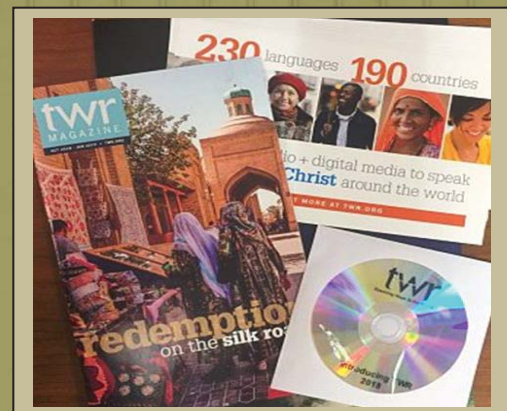

## Prayer and Praise:

- *Thank the Lord - funding for the Silk Road transmitter has completely been covered!*
- *Pray as the installation in Central Asia is finalized this month and turned on – mid-May!*
- *Praise God for safety for those who have come to help (work with high voltages and travel) and success in our endeavors.*
- *Pray for the team of local believers who are designing programs for their own people.*
- *Praise God that the interference with a station reading another religion's holy book has been greatly reduced.*
- *Pray for unity and joy amongst our newly established team here in Cyprus.*

## **Introduce TWR to your small group or Sunday school class!**

Request this free resource packet and share what God is up to these days in TWR. Spread the word that ordinary people with nontraditional missions skills (technical, creative and business) can fulfill the Great Commission and bring hope EVERYWHERE!
