

## *Give the winds a mighty voice!*

July 2018

Dear Praying Friends,

Do you know the song that phrase comes from? The verse goes on to say: ***Let the nations now rejoice...shout salvation full and free...this our song of victory, Jesus saves! Jesus saves!***

Thanks to your prayers and gifts we have given the winds on Bonaire a mightier voice. The transmitter upgrade for Bonaire is completed, as you know, and we have begun to hear from listeners who have been impacted by this mighty voice. Let me share a few of the responses with you:

***From the island of St. Vincent:*** I am delighted to share with you that I listened to TWR tonight, Friday, 2<sup>nd</sup> of March between 7-8 pm the English section of the program. Since you increased the power, I was trying to find you. I finally did tonight. The signal was strong here in St. Vincent. I am so happy. Now I can invite others to listen in. It is now the most powerful AM signal on this island and probably in these parts. Kudos.

***From a very violent, guerrilla infested area of Colombia where the local radio station was taken over by terrorists:*** We have the perfect reception at the night hours. We are happy and praise the Lord!

***From Cuba, written to Thru the Bible Spanish programs:*** May God bless you more, I listen to you again! After many years of longing for the signal to come back! Can you send me your notes and outlines?

***From a TWR staff member in Venezuela:*** Most people are listening, they can hear the signal very well. You can hear it anywhere. Even in Caracas they are listening. The signal is better than when we had the 500 kW in the old days. I feel like we are getting in those places where we didn't get for many years. We are even reaching the border between Venezuela and Colombia, where guerrillas still control some locations.

**Thank you** for your part in ***giving the tropical trade winds on Bonaire such a mighty voice!*** We are rejoicing that the message that ***Jesus saves*** is reaching people in old and new areas across Latin America with even greater power.

But other areas of the world need this ***mighty voice***, as well. I am thrilled to tell you that in May, after years of prayer, TWR signed a contract for a new 200,000-watt transmitter

that will waft the message of Jesus across much of Central Asia again. We have already been ministering here for a number of years, but the old equipment has failed and our broadcast time has become very limited. In this intense spiritual battlefield ***giving the winds the mighty voice*** via radio signals is the only way to bring hope to millions living in darkness. You will be hearing more about this new ***Silk Road transmitter*** in the coming days. Please pray with us that God will raise the funds and get this transmitter on the air as soon as possible. We long to hear reports from this region of the world of people tuning in and finding hope...hope in the wonderful message that ***Jesus saves!*** Pray about what He may want you to give to make this possible.

What an amazing thing radio waves are, traveling at the speed of light, unhindered by man-made barriers, carrying hope and life to those able to receive them. The song continues in another verse: ***Tell to sinners far and wide: Jesus saves! Jesus saves!*** What a blessing to be part of a world-wide ministry, harnessing this science and ***giving the winds this mighty voice*** to bring the world the hope of the Gospel. ***Thank you*** for serving with us with your prayers and with your gifts. You are key players on our team, and we couldn't do this without you!

In His great love,

*Terri*
