Fun Birthday

We enjoyed an afternoon celebrating Penny's birthday.

All Fired UP!

December 22nd a fire occurred that caused significant damage to TWR's office building in Cary, NC. The fire was started on our loading dock which made its way through the loading doors into the main building. There is an ongoing criminal investigation.

Now for some good news: A disaster recovery and property restoration company has done a nice job with cleanup, removal of damaged items and elimination of smoke and soot. So far, carpet and ceiling tiles throughout the building have been replaced, and walls have been repainted. New furnishings such as cubicles, desks, chairs and tables have been ordered.

We have been overwhelmed by the prayers and generous contributions of TWR supporters during this challenging time. Please continue to pray for our staff and those involved in the rebuilding process. It will be 4 - 6 months before things are back to normal.

Preparing for Disaster

Part of Bob's work is disaster recovery in case the Cary office building is no longer available due to some . . . disaster. Using Hyper-V replication technology mixed with a specially configured server he developed a remote site which allows us to spin up our servers remotely and restore TWR servers. We joined together for a road trip to Alabama to install the equipment. It was a great trip and it's nice to know we have a disaster recover site online.

Listener's Response

Morocco: "Your TTB Arabic program is my daily joy. I find my encouragement through it while walking in dark shadows. Because of the program I learned to sit with Jesus and spend time with Him. I would like to send you my gratitude for explaining to me the Word and being there for me.
