

It was a beautiful Thursday morning when I was reminded of one of my biggest blessings. After several days of dreary, cloudy skies and over six weeks of cancelled social events and limited excursions beyond our own neighborhood, I welcomed the opportunity to spend a few hours running essential errands. The sunshine was bright, the sky was cloudless, and the palm trees waved in the breeze as I drove past the sparkling blue Philippine Sea along Marine Corps Drive. The change of scenery certainly helped to lift my spirits, but what nourished my soul the most was the solid Bible teaching traveling through the airwaves and meeting me right where I was. We are blessed to have a local Christian radio station (<http://www.ktwg.com/>) that broadcasts programming from well-known teachers like Tony Evans, Skip Heitzig, Chip Ingram, Adrian Rogers, R.C. Sproul, and others. I always have the radio tuned to that station as I drive throughout the island. We haven't had a need to drive much since mid-March and listening to the Word of God on the radio that morning was life-giving.

This is what the ministry of TWR provides for people around the world. In regions where there are no Christian churches to attend or believers to fellowship with, there is radio. In homes and hospitals where the sick are bedridden, there are radio and online programs. Around the world where people are told to stay home and not go to work, church, or social events, there is hope and comfort coming to meet them where they are. What an incredible ministry and what a privilege to be a part of what God is doing! If you pray for us or partner with TWR then you are also a part of this. We cannot do what God has called us to do without those of you who are supporting and encouraging us! Thank you!

Speaking Hope to the World

On March 9, just before our government asked us to cease gathering, Grant was able to certify a group of students and faculty members at Pacific Islands University (PIU) in First Aid and CPR. Please visit the website of PIU at <https://piu.edu> to learn more about this small Christian university. It seeks to provide accessible, transformational, quality Christian higher education and ministry training to the people of Micronesia, to the Pacific Islands, and to the ends of the earth.

Our family experienced a great and unexpected loss in March when our beloved chihuahua, Tano, was hit by a car in front of our house. We grieved deeply and still miss him. A month later, we adopted a mini pinscher that we named Dash. Dash is three years old and has experienced abuse and trauma in his past and is still a bit skittish, but we are committed to loving him and helping him learn to trust us.

- Please pray for our summer schedule. With the uncertainty of schedules and travel, our family desperately needs some routine and normalcy.
- Pray for people all over the world who are seeking hope and comfort right now, that they would turn to Jesus and the Bible for answers.

The You Version Bible app makes God’s Word available online, on smartphones, and on tablets. It has been downloaded over 425 million times, and data shows more people worldwide are using the Bible app during these COVID-19 times. Jeff Moore, the director of global impact at You Version, stated that April 2020 “was by far the largest month for Bible engagement we’ve ever seen in almost every category we measure.” In a collaborative effort, TWR, You Version, and Thru the Bible (TTB) were able to fast-track new reading plans for Spain and Italy as those countries were being hit the hardest by COVID-19. Praise God for people who are turning to His Word during this time!
