McGui Report

Larry and Virginia McGuire

November 2020

Our 17th Grandchild

held by sister Naomi, and watched by Jonah

Galilea Iris

born to

Philip & Michelle McGuire
28 September 2020 – 7:23 pm
6 lb. 9 oz. 19½" long

Jonah, Naomi, Makiya, Joash, and Galilea

FMs for Latin America

▲ Two transmitters destined for an originally 'unpublished' location were shipped at the end of August. One of these two has now arrived at Bacalar, Quintana Roo, Mexico.

The last four FM transmitters remaining in Elkhart are still waiting for shipping to reopen to Bolivia. **Pray** that all ten of these transmitters

(including the four sent to Peru last year) will soon be *Speaking Hope* to their communities in Latin America.

The Oasis Project

Some parts required to allow the new AM transmitter in West Africa to increase its power above the 100,000-watt level have finally cleared customs. **Pray** as technicians there, instructed remotely by engineers from South Africa and stateside (including Larry), make the necessary repairs and adjustments for increasing the power. On September 10, we delivered 200 fixed-tuned solar-powered radios, plus spare circuit breakers and other parts to be packed into a container in Indianapolis headed to West Africa. **Pray** for speedy delivery of these and other items in that container.

10,000-watt AM Transmitter for Haiti

Larry and Tim Zook, a SonSet Solutions missionary, are currently determining whether a solid-state 10,000-watt AM transmitter that has been in storage for several years can be tuned to a new frequency for use at Christian radio station 4VEH in Haiti. Step one has been completed – verifying that it will operate at 10,000 watts on the original frequency. We are currently in the next phase of determining the parts, cost and steps required to change frequency. **Pray** for wisdom in this process and for reasonable prices for the parts.

Mr & Mrs Mark McGuire

Mark McGuire and Katie Meyer were united in marriage on 25 July 2020 as announced in our August McGuiReport. There were about thirty who attended the simple wedding ceremony held outdoors in perfect weather at her parent's home in Hartville, Ohio.

eSwatini Trip

The shortage of engineers remains critical at TWR eSwatini (formerly Swaziland). Due to continued COVID-19 restrictions our plans to assist there are still on hold. **Praise** the Lord that broadcast equipment has functioned well and **pray** that it will continue to do so! **Pray** for more long-term engineers to staff this and other TWR transmitting facilities.

Family Updates

We made a quick trip to Colorado in October. Larry's 93-year-old mother has experienced a decline in health during the summer and we decided to see her again before winter sets in. While in Colorado, we did some repairs on outbuildings at the 'home place' and were able to visit one of our smaller supporting churches. We also celebrated the day of our 51st wedding anniversary with a drive through the mountains and lunch at a small restaurant in the small town of Divide.

Allan – is now working as an applications engineer for Xantrex – www.xantrex.com – at their Elkhart office, working directly with customers and integration of their products. **Pray** for Allan to adjust well to this new job, co-workers and more traveling.

Nathan – is extra busy again since his evening job has resumed at Goshen Community Schools now that major repairs to the building have been completed.

Samuel – is currently working at two dental practices and seeking the Lord's best for him. In September, Samuel and Angelique purchased and moved into a larger house with more property in Portage, Michigan, which is a little closer to Elkhart.

Please **pray** for finalization of the sale of their previous home, for Sam's job decision and especially for Angelique as they have decided to home-school this year in light of continuing schooling uncertainties due to COVID-19.

Philip – and Michelle have their hands full – see front page!! Please **pray** for them!

Joshua – and Angie have also made the decision to home-school Nora this year. Angie also cares for and schools another girl Nora's age. **Pray** for them, too!
