

Transmitter Spare Parts Project

In 2012, TWR purchased five used high-power transmitters to use in locations where radio is the primary means of communication.

These transmitters reach people in need of the Gospel in Pakistan, Afghanistan, N. India, southern Africa and Central Asia (the 'stan' countries, including northwest China.)

Now, TWR wants to ensure that these transmitters have at least a 10-year supply of spare parts. We are increasingly concerned that the company which provides these parts may be going out of business. TWR has negotiated to buy spare parts from this company for \$60,000.

Can you partner with us to make the Good News available?

Gifts to this project can be designated as Transmitter Spare Parts and sent to the TWR Americas office address on the next page.

"I am glad God is acting through you. I am a Christian, and I like to praise Him. My family is against my faith in Jesus. It is impossible for me to go to church, and no one visits me. I hear God's Word through your radio programs and glorify Him. Be blessed in Him."

October 2020

Family Vacation

We were super blessed in August to be able to all gather in the Pennsylvania mountains for a week of family time together. We're getting to be a big group with all five grandchildren – makes for a busy, mostly happy crew!

With our dear grandchildren, left to right: Bennett, Rowan, Nora, Harper and Holden

Other Family News

When we came back to the states in August for vacation, we had no idea our stay might be extended. It has turned out that this is a good time to sell our home here in Pennsylvania.

So, we are in the Philadelphia area this fall for an unknown period while we wait to see who God will bring along to enjoy this home. Then we will return to Cyprus, Lord willing.

We will also take this time to visit our supporting churches (as many as are possible in these unusual COVID circumstances) and bring an update about what God's up to around the world through TWR.

Prayer Requests:

- ✚ For a quick and profitable sale of our house here in Pennsylvania so we can return to Cyprus
- ✚ For the Russian ministry as our colleagues explore the best ways to reach that area of the world with the Gospel
- ✚ For TWR's transmitters in various parts of the world to keep working well, despite travel restrictions that don't allow our technicians to travel there due to COVID

TWR harnesses media to share the hope of Jesus around the world.

Russian Ministry Expands

In the past 12 months there has been a renewed interest in reviving and expanding TWR's Russian ministry.

Our young and enthusiastic team in Siberia are bursting with ideas about how to best share Jesus with their culture using many different mediums, including radio, Facebook, Instagram, YouTube and others. They are excited!

Another amazing facet of this is that the Russian Orthodox church has approached TWR and requested that we help them bring the message of hope to their people

TWR is already on a network of stations in Finland that is directly targeting Russians living and vacationing in Finland – for free!

Please keep these wonderful new developments in prayer!
